13. Please describe this person's greatest strengths as a Instructional Assistant.

Please keep your comments constructive and professional, abiding by the Principles of Community

- Kalkin is the sole tutor I know can count on, always, whether it be for debugging difficult code or clearly explaining the soul-crushing concepts of this class. This individual knows his boundaries, and publicly enforces them, the mark of a mature mentor. I have fond memories of FNU safely walking me through the darkness of my code to reach the nearest target, keeping me entertained with in-line commentary about the beauties of Java. When I make embarrassing mistakes in my code, Kalkin is the one I feel comfortable showing them to since I know he will keep my secrets. Every day feels like a birthday at our Halicioglu home when I know Kalkin will be tutoring the day. It might be wrapped for us, but it better not be for my successors who deserve to be tutored by this icon.
- Kalkin's lowkey a genius. I'd been struggling with a problem for like an hour. Kalkin took one look at my code and immediately knew where the bug was. He's chill and really good at explaining stuff.
- very kind and patient and always open to help all students
- You are very smart, it can be a little scary. But if you were very good at explaining concepts!!!!

14. Please describe this person's greatest weaknesses as a Instructional Assistant.

Please keep your comments constructive and professional, abiding by the Principles of Community

- I couldn't even if I tried since FNU has none.
- no weakness

15. Do you have any other comments to add to your evaluation?

Please keep your comments constructive and professional, abiding by the Principles of Community

- I hope you enjoyed your birthday party!!!!
- Thank you for teaching me about debugging. It has shaped the way I approached coding problems.
- thank you so much for everything this quarter!!!!
